

# Cycle friendly Taupo

## CycleRacks

There are blue cycle racks all over town. The racks are easy to use - just lean your bike against the rack and loop your own lock around the rack and your bike frame. Done! Each rack can hold 2 bikes. Now spend some time at a friendly little cafe or go shopping.

## Ride Safe

**Share with care**  
Respect all road users including pedestrians and cyclists. Watch for cars - they don't always watch for you.

**Be seen. Be heard**  
Wear suitable clothing. Bright colours make you much easier to see. When riding at night, ensure you have front and rear lights. Pick up a bell from a local bike shop so you can warn other path users of your presence.

**Make sure your bike is in good condition**  
There is nothing worse than being stuck somewhere with a broken down bike. Keep yours well maintained and know how to fix a flat tyre.

**Ride for the conditions**  
Maintain control of your speed at all times. Make sure you're able to stop quickly and safely if you suddenly have to.

**Always wear an approved safety helmet**  
Look after your head - it's the only one you've got.

**Dedicated Cycle Lanes**

- 1 Heu Heu Street from Tongariro Street to Kaimanawa Street intersection.
- 2 Lake Terrace/State Highway One - southbound.

**Shared Cycle Paths (with pedestrians)**

- 3 Centennial Drive from Top 10 Camping Ground to Fletchers Mill.
- 4 Kimberley Reserve.
- 5 Acacia Bay Road between the 100km boundaries.
- 6 Kiddle Drive from Invergarry Road to State Highway 5 intersection.
- 7 Waikato River from Control Gates Bridge to Taupo Bungy.

**Shared Cycle Lanes (with road users such as parked cars)**

- 8 Spa Road from Tongariro Street roundabout to Centennial Drive.
- 9 Lake Terrace/State Highway One - northbound.
- 10 Loop - AC Baths Ave, Tauhara Road, Broadlands, Centennial Drive.

**Velodrome at Owen Delany Park, Centennial Drive**

Great for winter evening training. Meet lots of fellow cyclists.

Winter floodlights are on: Mondays and Wednesdays 5pm to 9pm
