Hi everybody,

I hope everyone is enjoying the new "Luge" track!

Thanks to all the people, who turned up at the working bees and helped at other times. This makes the ride up the Retro well worth it.

Lots of work is going on, most of it just keeping the tracks open and in good order. We have had a huge increase in the number of riders and thus more wear and tear to the tracks.

Thanks to Jayden for building up the corners on the Coaster - it rides much better now. We all hope John Tailor gets better soon as we are missing him and his volunteer maintenance on the Rotary Ride.

We also have received funding for the Bungy track (linking Cherry Island to Spa Road) from Rotary and Ground Effect and hope to start that one soon.

Cheers
Pete M.
