It was another fine evening for the third race of the Gordon's Icebreaker GT Night Race Series. We had 39 riders, and that is the best turnout so far. Air was a bit cold though.

There is now just one more race, to complete this four race series, before the Day-Night Thriller takes place

Read more below to see the full results of Race 3.

There are some hazards in night riding, as Trevor Stevens can confirm. Pity about his front wheel. It will take way more than a spoke key to fix that one, eh!

Thanks to Gordon's Outdoor Equipment of Taupo, and Icebreaker, for all those awesome spot prizes.
